

JANE DOE

Director of Product · AI Platform & Revenue Infrastructure

jane.doe@example.com · +1 (415) 555-0142 · San Francisco, CA · linkedin.com/in/jane-doe-example · github.com/jane-doe-example

SUMMARY

Director-level product leader with 11 years across B2B SaaS, fintech, and developer tooling. Shipped revenue infrastructure (\$12M ARR new line), enterprise partnerships (\$8M ARR ecosystem), and production AI/ML features (\$4M ARR forecasting model) at production scale with verified ARR attribution per surface. Engineering background (Microsoft SWE, CMU CS); MBA Stanford GSB. Built and grew PM team from 4 to 7 across 3 product lines with zero regretted attrition. Looking for a Director or VP of Product role at a Series A-C AI platform company where AI is the product, not a feature.

PROFESSIONAL EXPERIENCE

Director of Product, Revenue Platform

Jan 2023 - Present

RevenueFlow Inc · San Francisco, CA · Series C fintech SaaS

- **Platform scale-up:** Owned Revenue Platform product line P&L across 3 surfaces (Billing, Metering, Rev-Rec). Scaled from \$11M to \$42M ARR over 14 months across 1,400 enterprise customers processing \$2.3B annual customer GMV. Maintained 134% net revenue retention through the scale-up.
- **AI Forecasting feature, end-to-end:** Shipped AI/ML forecasting surface end-to-end as own PRD + model selection + GTM lead. Added \$4M ARR over 3 quarters at 67% attach rate on new enterprise deals. Argued for and got board approval to delay Series D fundraise 6 months to ship the surface; raise then closed at 1.6x initial target valuation.
- **Enterprise partnerships:** Integrated 3 of Big-4 audit firms (KPMG, EY, Deloitte) as referral and co-sell partners. Generated \$8M ARR ecosystem revenue in first 12 months and 27% of new enterprise pipeline. Co-owned the partnership contracts with Head of Partnerships and Legal.
- **Pricing rebuild for margin:** Reframed pricing from per-seat to usage-based after analyzing 6 months of enterprise renewal data; identified that 73% of churn was driven by misaligned price-to-value. Delivered 18% gross margin lift on renewals over 4 quarters and retained \$2.1M ARR from at-risk accounts.
- **Team building and leadership:** Grew PM team from 4 to 7 direct reports across 3 product lines. Drove 2 internal promotions (PM to Senior PM) and held zero regretted attrition over 18 months. Established structured weekly 1:1 + monthly career-growth cycle that became org standard.

Group Product Manager, Billing Surface

May 2021 - Dec 2022

RevenueFlow Inc · San Francisco, CA

- **Monolith to API-first migration:** Owned Billing surface roadmap during platform transition from monolith to API-first architecture. Cut customer integration time from 6 weeks to 9 days median through new SDK design and migration tooling for the top 200 customer accounts.
- **Activation lift:** Shipped self-serve onboarding flow as 4-cohort experimental rollout. Drove activation rate from 22% to 38% (38% lift), tracked via weekly cohort dashboards that became GTM standard.

Senior PM to Principal PM, Data Ingest

Mar 2019 - Apr 2021

MetricFlow · San Francisco, CA · Series A fintech data analytics

- **Throughput doubling at Series B:** Owned core data ingestion product through Series B fundraise. Doubled ingest throughput from 1.2K to 2.4K events per second per customer; the throughput claim was the lead exhibit in the Series B pitch.
- **dbt-native semantic layer:** Launched dbt-native data model layer that 280 enterprise customers adopted in 6 months and contributed 31% of net new ARR over that period.
- **Consumption pricing migration:** Led pricing migration from per-event to consumption-based across the customer base. Net revenue retention moved from 108% to 134% over 4 quarters of staged rollout.

Senior PM, Cross-Border Payments

Jun 2017 - Feb 2019

ScalePay · San Francisco, CA

- **Fraud-detection ML:** Shipped fraud-detection ML model for cross-border payments; reduced false-positive rate from 4.2% to 1.8%, protecting \$560M USD merchant volume from incorrect holds.
- **Onboarding rebuild:** Owned merchant onboarding redesign; KYC completion rate moved from 41% to 67% via document-validation flow restructure and copy rewrites.

APM to PM, Cross-Surface

Jul 2015 - May 2017

BlueCart Inc · San Francisco, CA · Series A e-commerce SaaS

- First PM hire at Series A e-commerce SaaS; shipped 4 surfaces (catalog, orders, returns, analytics) before scope was split across the growing team. Promoted to PM after 14 months on the strength of returns-flow rebuild that dropped return rate from 19% to 11%.

Software Engineer, Bing Search Quality

Aug 2013 - May 2015

Microsoft · Redmond, WA

- Built and shipped 2 ranking-signal features used by Bing search infrastructure team. Transitioned to product after leading the cross-team triage protocol that became standard for that org.
